SUMMARY

Bilingual (Arabic/English) AI and Mobile Engineer with 5+ years of experience at a Gulf-based AI & data advisory firm, building scalable cross-platform applications and production AI solutions for enterprise and government clients across the UAE and GCC. Hands-on expertise in Large Language Models, RAG pipelines, AI agents, prompt engineering, and Generative AI workflow automation, alongside a proven Flutter track record shipping mobile apps serving 1,000+ monthly active users. Currently combining engineering depth with client-facing business development: technical pre-sales, solution demos, and translating client requirements into delivered AI solutions.

TECHNICAL SKILLS

AI & Generative AI: Large Language Models (LLMs), Prompt Engineering, Retrieval-Augmented Generation (RAG), AI Agents & Agentic Workflows, Function/Tool Calling, Fine-Tuning (LoRA/QLoRA), Multimodal AI (text, vision, speech), NLP, Chatbot Development, AI Workflow Automation

AI Frameworks & Tools: OpenAI API, Anthropic Claude, Hugging Face Transformers, LangChain, LangGraph, CrewAI, OpenAI Agents SDK, AutoGen, Model Context Protocol (MCP), Ollama, Whisper (Speech-to-Text), Gradio, Streamlit

Embeddings & Vector Databases: OpenAI Embeddings, Chroma, FAISS, Vector Search, Semantic Retrieval

Mobile & Web: Flutter (Android & iOS), Dart, React.js, JavaScript, REST API Integration, Responsive Design, State Management (Provider, Riverpod, Bloc, Redux, Context API), Figma-to-App Pixel-Perfect Conversion, Localization (Arabic RTL / English), Google Play & App Store Publishing

Cloud, Backend & Databases: Python, Firebase (Auth, FCM, Firestore), PostgreSQL, ASP.NET, C#, KeystoneJS, Twilio API, Git/GitHub

Business & Client-Facing: Technical Pre-Sales, Solution Demos, Proposal Support, Client Requirements Analysis, Stakeholder Communication (Arabic & English)

PROFESSIONAL EXPERIENCE

BluGrass Technologies · AI & Data Advisory and Execution · Dubai, UAE

February 2021 - Present

Business Development Manager (Technical)

April 2026 - Present

- Support the sales team across client engagements, technical demos, and proposals for enterprise AI and digital solutions in the UAE and GCC
- Build internal AI-powered tools and automations that improve team productivity and streamline delivery workflows
- Act as the bridge between business and engineering, translating client requirements into technical scope in both Arabic and English

AI Engineer

November 2024 – April 2026

- Built AI features using OpenAI and other Large Language Models, integrated into the company's mobile and web products, including Mowazaf (formerly BluAttend)
- Developed Retrieval-Augmented Generation (RAG) pipelines using LangChain, embeddings, and vector databases (Chroma) to deliver knowledge-grounded responses over business documents
- Built AI agents with function/tool calling to automate repetitive tasks and internal business processes
- Created chatbot solutions for internal use and customer support, with prompt design, conversation handling, and response evaluation
- Evaluated frontier and open-source models (OpenAI, Claude, Llama via Hugging Face and Ollama) for cost, speed, and accuracy per use case
- Prototyped and demoed AI solutions rapidly using Gradio and Streamlit for stakeholder validation
- Continuously assessed new AI tools and applied them to practical, production-oriented business use cases

Mobile Developer

February 2021 - November 2024

- Led development of the BluAttend HR mobile application using Flutter and Firebase, supporting 1,000+ monthly active users on Android and iOS
- Developed scalable cross-platform applications with responsive UI and clean architecture
- Integrated third-party services including Google Sign-In, Apple Sign-In, and Firebase Cloud Messaging
- Improved app performance by optimizing API calls and implementing local caching
- Collaborated with product managers and stakeholders to gather requirements and deliver features
- Maintained company websites, ensuring performance and SEO best practices

Full Stack Developer (Project)

August 2024

Dubai Sports Council · Dubai, UAE

- Developed an AI chatbot integrated with the ChatGPT API for automated user interaction with government-facing services
- Implemented Twilio API for messaging and communication workflows
- Built frontend components using React.js and backend functionality with KeystoneJS and PostgreSQL

PROJECTS (GITHUB PORTFOLIO)

Mostashar: Bilingual Arabic/English RAG Knowledge Assistant · Python · LangChain · OpenAI · ChromaDB · Streamlit

- SaaS-style document Q&A platform with user accounts and isolated workspaces; cross-lingual retrieval with inline citations, Arabic-aware chunking, and prompt-injection defenses with red-team test suite

Mawid AI: AI Customer Support & Booking Agent · FastAPI · OpenAI Function Calling · Whisper · Twilio WhatsApp

- Bilingual voice and text agent that answers FAQs, checks availability, and books appointments through tool calling, with a real booking engine, admin dashboard, automated WhatsApp reminders, and webhook signature security

Lajna: Multi-Agent Document Review & Decision Platform · LangGraph · CrewAI · OpenAI · Pydantic

- Specialized agents (parser, scoring, compliance, communication) collaborate under a supervisor to screen applications with human-in-the-loop approval, bias/PII compliance checks, and a tamper-evident audit trail

Arabic Feedback Classifier: Fine-Tuned Open-Source LLM · QLoRA · Hugging Face · Llama/Qwen

- Fine-tuned a small open-source LLM with QLoRA to classify Arabic customer feedback, benchmarked against a GPT baseline for accuracy and cost, and deployed on Hugging Face Spaces

Mahdar: AI Meeting Minutes Generator · Python · faster-whisper · OpenAI · Streamlit

- Offline-capable, privacy-first tool that turns bilingual (Arabic/English) meeting audio into structured minutes with decisions and action items; encrypted at rest with DOCX/PDF exports including RTL layouts

Fatoora Scan: Smart Receipt Scanner & Expense Manager · Flutter · Riverpod · Drift · Vision LLM

- Offline-first finance app: camera capture with vision-LLM extraction (UAE VAT-aware), budgets, reports, biometric app lock, and encrypted local database, in Arabic and English

Aada (عادة): Bilingual Habit Tracker · Flutter · Riverpod · Drift

- Open-source, privacy-first habit tracker with a schedule-aware streak engine, Arabic RTL and Hijri date support, gamification, encrypted backups, and full test pyramid; released end-to-end through Google Play

Mowazaf App (formerly BluAttend) · Flutter · Firebase

- Production HR mobile application with authentication, push notifications, and real-time data handling, serving 1,000+ monthly active users

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science, Beirut Arab University · Beirut, Lebanon

2019 - 2022

Professional Courses (2025 - 2026):

- LLM Engineering: Master AI & Large Language Models: RAG, fine-tuning (LoRA/QLoRA), Hugging Face, multimodal AI, Gradio
- The Complete Agentic AI Engineering Course: CrewAI, LangGraph, OpenAI Agents SDK, AutoGen, Model Context Protocol
- The AI Engineer Course: Complete AI Engineer Bootcamp — Python, NLP, LangChain, vector databases, speech recognition

LANGUAGES

- Arabic - Native
- English - Professional Proficiency
- French - Professional Proficiency (DELF B2)
